- CONVENORS
**Dr. Jan van Aalst
Prof. Carol Chan**

INAUGURAL “**D**ESIGNING **P**OWERFUL **L**EARNING **E**NVIRONMENTS” COMMUNITY EVENT!

We are establishing a community dedicated to supporting and sharing innovative teaching that address current educational goals. These approaches include learning how to learn, collaborative learning, learning with technology, assessment for learning, project-based learning and knowledge building. With many advances in the learning sciences recently, it is timely to take research on learning to school to help educators to improve teaching and learning.

In this first event, you will have a chance to *meet DPLE community members*, *share your ideas for the community*, *and learn about innovative practices from experienced teachers*. The programme will also include a *hands-on workshop on Knowledge Forum® 5*, which is a recently launched major update on an online environment for knowledge building. Please visit our website for more information.
