

MSc(LIM) 2018

Master of Science in Library and Information Management

The Programme is professionally accredited by the Chartered Institute of Library and Information Professionals (CILIP), UK.

Information Management is a multi-disciplinary field of study which combines social and behavioural sciences, ICT (information and communications technology), organisational behaviour and library sciences, as well as leadership and project management.

Our graduates will acquire this multi-disciplinary knowledge and understand its applications in a wide variety of careers such as government, finance, library management and many others.
