

Key to the Success of E-learning Studies: Strategies of Finding Innovative Research Topics

Gwo-Jen Hwang

Chair Professor

Graduate Institute of Digital Learning and Education
National Taiwan University of Science and Technology

**January 10, 2019 (Thursday)
Room 205, Runme Shaw Building, HKU
12:45 – 14:00
*Chair: Dr Maggie Wang***

Abstract:

Finding a good research topic is one of the most important and challenging tasks for researchers. Most papers submitted to well recognized journals are rejected owing to the lack of innovations in the studies. In this talk, the speaker will present the strategies for finding innovative e-learning research topics as well as the criteria of publishing a quality paper. In addition, several authentic examples will be given to demonstrate how the value of an e-learning study can be promoted.

About the speaker:

Dr. Gwo-Jen Hwang is currently a Chair Professor at the National Taiwan University of Science and Technology. He is also Dean of College of Liberal Arts and Social Sciences at the university. He received his Ph.D. degree in Computer Science and Information Engineering from the National Chiao Tung University in Taiwan in 1991. His research interests include mobile and ubiquitous learning, flipped learning, digital game-based learning, and artificial intelligence in education. Since 2013, he is in charge of a national mobile learning promotion program in Taiwan to assist high school teachers to develop teaching plans using mobile technologies. Dr. Hwang has published more than 550 academic papers including more than 130 papers published in SSCI journals. He serves as an editorial board member and a reviewer for more than 30 academic journals of educational technology and e-learning.
