BACHELOR OF SCIENCE IN APPLIED CHILD DEVELOPMENT

BSC(ACD) (A202)
Faculty of Education
The University of Hong Kong
Programme Overview

• The BSc (Applied Child Development) programme is a two-year top-up degree for holders of Higher Diplomas or Associate Degrees in the field of Early Childhood Education to upgrade their academic qualifications.

• Successful applicants shall be admitted directly to **Year 3** (i.e. there is no Year 1 or Year 2 admission).
Programme Overview

• The BSc (Applied Child Development) programme
  • provides students with a strong foundation in the knowledge, skills and attitude required for working with a wide diversity of children and families.
  
  • allows students to gain insights into the theories of child development and acquire deep understanding of the interrelationships among theory, research, practice and policy.

Coursework

• The programme offers courses that cover a variety of topics including:
  • Perspectives on Early Childhood Development and Learning
  • Cognitive and Language Development
  • Social and Emotional Development
  • Physical Development
  • Development and Education of Young Children with Special Needs
  • Observation and Assessment of Children and Early Childhood Programmes
  • Developmental Neuroscience
  • Introduction to Research Methods
  • Child Development and Public Policy
Coursework

• The programme offers elective courses that cover a variety of topics including:
  • Bilingualism in Young Children
  • Children, Arts and Technology
  • Guidance and Counseling
  • Contemporary Issues in Child Development
Programme Features

• Field experience
  • Field experience provides students with the opportunity to apply and integrate the knowledge gained from coursework to research and practice.
  
  • Field experience sites include schools, labs, research organizations, non-profit organizations and other professional settings.
  
  • Your work will be supervised by the Field Supervisor at the placement site and by the Faculty Supervisor through a series of seminar meetings.
Programme Features

• Independent Project
  • In second year of study, students complete an independent research project under the supervision of a Faculty mentor in a self-selected area of interest.
Eligibility for Registration

- Bachelor of Science in Applied Child Development [BSc(ACD)] has been approved as a training course for child care workers (CCW) and child care supervisors (CCS) by the Social Welfare Department.

- Students admitted to this programme in the 2016/17 school year and thereafter will be eligible for registration as CCW and CCS upon successful completion of this programme.
Career Prospects

- Teaching positions in schools and child care centres, special schools and other educational settings
- Administration in NGOs, family and children’s agencies and other educational bodies
- Research opportunities in organizations and tertiary institutions
- Further studies in the field of early childhood education and related areas
Admission Requirements

• Candidates holding a recognized Higher Diploma/Associate Degree in Early Childhood Education of at least two years in duration from a community college in Hong Kong are eligible to apply.

• Final-year students on such programmes can also apply and their applications will be considered subject to their completion of the programme by August 2019.

• There are 30 places for admission to the BSc(ACD) programme for the September 2019 intake.
Application Process

• Applicants should submit their applications through "Admissions to Senior Year Places (Direct Admissions Scheme)". Detailed application procedures can be found at: http://www.aal.hku.hk/admissions/international/admission-information?page=direct-admissions-scheme

• Program Code: A202

• Deadline for Admissions to Senior Year Places (Direct Admissions Scheme): **November 20, 2018** (12:00 noon Kong Time)

• Shortlisted candidates will be invited for an interview in February – early April 2019.

• You will receive an admission offer starting from March to the end of August 2019.
